TOWN AND PROVINCE

Poultry And Eggs

EX-CLERK TO WED MILLIONAIRE

Revenue From This Source Over Fifty Million Dollars Last Year

Poultry and eggs are big business on Canadian farms and brought considerably over fifty million dollars in revenue last year. This sum is somewhat surprising to those who associate the source of poultry and eggs with a few hens busily scavenging for a living in an old-fashioned farmhouse with a few chickens pecking within measurable distance of yielding half as much to the farm family economy as the modern flocks derived from farm animals.

Poultry and eggs play a large part in the agricultural life of the provinces with their large centers of population at hand. Ontario led last year with a revenue of about 21 million dollars, much more than that received from fruit and vegetables. Quebec was second with over \$7,000,000. The aggregate of the Maritime Provinces was \$2,600,000. Great advances in revenues from poultry and eggs were recorded in the prairie provinces. Saskatchewan leading the way with a rise from \$1,800,000 in 1934 to \$7,200,000 in 1935. Revenue in British Columbia, Alberta and Manitoba were also increased.

Exhibit Is Valuable

Diamond-Studded Stature Shown At Exhibition

A diamond-studded stature worth \$2,500, sparkled among exhibits at the annual meeting of the Royal Canadian Dental Association at the Royal York hotel in Toronto.

It is not a new piece of jewelry but was worn for 25 years by a Toronto dentist. The crown was placed on by Dr. C. Kennedy, curator and librarian of the University of Toronto. The plate was made for the eccentric dentist and was valued at \$2,500. It was made in 1910 and was found in the six front teeth. The crown was made of gold and was valued at \$2,500. It was made in 1910 and was found in the six front teeth.

Shortly after the opening of the present century, the Rocky Mountain Development Company drilled a well at Waterloo Lakes and the diamonds were found. The diamonds were found in the six front teeth. The crown was made of gold and was valued at \$2,500. It was made in 1910 and was found in the six front teeth.

Microbes that keep bath water safe have been successfully experimented with by scientists in London. A room high above the Strand in London is a laboratory where water purifiers are being tested.

Olive Hamilton

Attractive Olive Hamilton, former hotel clerk, fell from her rowing boat while rowing near the palatial yacht of William B. Lewis, young millionaire, several years ago. The incident prompted her to "fall for him" and their romance dating from his escape of the fall. Their marriage plans were revealed while the two were cruising in Southern waters. A few pictures of the "lucky lady" is shown above.

New Theory For Longevity

Egyptian Thinkers Keep Brain Well Fed

Learning shortness of life. That is the conviction of a 112 year old man in Cairo, Egypt, Amr Mohamed, a millionaire, claims to have just reached his 112th year and still make his goals, and delivers the milk from door to door, as usual, often climbing several flights of stairs. His recipe for life is: Don't drink, don't smoke, don't indulge in pleasure, and above all, don't tire your brain with learning. Mohamed, the third of three healthy meals, and the third of three healthy meals, and the third of three healthy meals.
